- Attention to detail

## PROFESSIONAL SUMMARY

Seeking a software developer i.e., Salesforce Developer position in a dynamic and innovative company where I can utilize my technical skills and knowledge to contribute to the growth of the organization. Professional highlights include:

- Skilled Salesforce Developer with a strong foundation in Apex and Lightning Web Components (LWC).
- Skilled in customizing Salesforce applications using Lightning App Builder, Flows, Process Builder, and Workflow Rules.
- Ability to develop and optimize Apex triggers, batch processes, and Asynchronous Apex for complex business logic.
- Experience in building interactive user interfaces using Lightning Web Components (LWC).
- Skilled in Lightning Flow automation to streamline business processes.
- Experience in creating Custom Objects, Fields, Record Types, Page Layouts, and Validation Rules.
- Proficient in Salesforce Object Query Language (SOQL) and Salesforce Object Search Language (SOSL) for efficient data retrieval.
- Hands-on experience with Data Import Wizard, Data Loader, and Workbench for data migration and integration.
- Understanding of Salesforce security models, including Profiles, Roles, Sharing Rules, and Field-Level Security.
- Knowledgeable in Salesforce development lifecycle, including design, development, testing, and deployment.
- Familiar with REST and SOAP API integration for third-party system connectivity.
- Exposure to unit testing in Salesforce using Apex test classes to ensure code coverage.
- Comprehensive Understanding of functional Salesforce Sales Cloud and Service Cloud functionalities, including Case Management and Lead Conversion.
- Hands-on knowledge of Salesforce Reports, Dashboards, and Reporting Snapshots for data visualization.
- Strong problem-solving skills in debugging and troubleshooting Salesforce applications.
- Knowledge of Object-Oriented Programming (OOP) concepts to develop scalable solutions.
- Experience with custom metadata types and custom settings to manage dynamic configurations.
- Strong communication skills to collaborate with business analysts, admins, and stakeholders.
- Passionate about continuous learning, staying updated with Salesforce releases, and obtaining new certifications i.e., PD-1 Certification of Salesforce Development.

## CERTIFICATIONS

### Lean Six Sigma Green Belt

Trailhead Rank: Ranger

## PERSONAL PROFILE

Languages: English, Marathi, Hindi

Date of Birth: 19 February 1998

## PROFESSIONAL EXPERIENCE

### Management Trainee – Contracts

AFCONS Infrastructure Ltd., Mumbai

July 2024 – November 2024

- **Reviewed and analysed contract documents for four major construction projects**, ensuring alignment with project scope, commercial terms, and legal compliance requirements.
- **Assisted in drafting, reviewing, and maintaining key contract documentation**, including notices for extensions of time and variation claims, under the guidance of senior contract managers.
- **Monitored contract milestones, deliverables, and payment schedules**, contributing to timely execution and supporting project teams with up-to-date contractual insights.
- **Supported risk identification and compliance tracking**, including the management of insurance certificates, indemnity clauses, and warranty obligations across multiple projects.

### Business Analyst Intern

Intento Associates, Navi Mumbai

May 2023 – Jul 2023

- Researched Global BIM Implementation and its potential growth in India.
- Analysed and investigated the BIM Market in the United Kingdom and Germany.
- Compiled sector-wise data & information about construction companies in UK and Germany working in BIM.
- Advised and consulted about the potential growth in the European market for BIM Consulting.

## EDUCATION

### M.B. A. in Advanced Construction Management

National Institute of Construction Management and Research University  
CGPA: 7.88

July 2022 – May 2024  
Pune, India

### B.E. in Civil Engineering

Shri Ramdeobaba College of Engineering and Management  
CGPA: 6.36

July. 2017 – May 2021  
Nagpur, India

## PROJECTS

### Body Fat Percentage Calculator Application

**Role:** Salesforce Developer

#### Description:

Developed a Body Fat Percentage Calculator allowing users to calculate and receive their body fat percentage, via a custom-built Salesforce Interface and Website.

**Technologies Used:** LWC, Lightning Web Runtime(LWR) under Experience Cloud, Lightning Data Service, Business Process Automation (Flows) and Data Model

**Key Contributions:**

- Generated and implemented a scalable data model for Body Fat Percentage entity.
- Built and deployed a responsive website using Lightning Web Runtime (LWR) under Experience Cloud, showcasing interactive LWC components and real-time data handling with Lightning Data Service.
- Developed a custom Lightning component to calculate and display Body Fat Percentage based on user-provided gender and body measurements.
- Implemented user input functionality to capture name and email for those opting to receive results via email, storing the data in Salesforce using Lightning Data Service.
- Designed a Lightning Flow to automate the process of sending Body Fat Percentage results to users via email.
- Ensured seamless user experience and functional integrity across the reservation lifecycle.

**Premium Cabs – Cab Booking Application**

**Role:** Salesforce Developer

**Description:**

Engineered a cab booking application for intercity travel, allowing users to reserve cabs via a custom-built Salesforce interface.

**Technologies Used:** LWC, Apex, Business Process Automation (Flows), Data Model

**Key Contributions:**

- Generated and implemented a scalable data model for Cab Reservation and Customer entities.
- Built and deployed Lightning Web Components (LWC) and Aura components for user interaction.
- Automated business processes using Lightning Flows and used Apex Class for validation logic.
- Ensured seamless user experience and functional integrity across the reservation lifecycle.

**Book Your Show – Ticket Booking Application**

**Role:** Salesforce Developer

**Description:**

Created a concert ticket booking platform allowing users to browse, select, and purchase event tickets.

**Technologies Used:** LWC, Apex, Business Process Automation (Flows), Data Model

**Key Contributions:**

- Built custom objects for concerts, venues, and ticket purchases.
- Enabled dynamic display of concert data and pricing via Lightning components.
- Integrated Flows for booking automation and managed user input validation using Apex.
- Focused on delivering a responsive and intuitive user experience.
